

## THE SUMMER SEASON.

GAY TOPICS AT SARATOGA.

MUSIC AND DANCING—ARRIVALS—THE RACING SEAS-

ON.

[FROM THE REGULAR CORRESPONDENT OF THE TRIBUNE.]

SARATOGA SPRINGS, July 12.—More magni-

cent weather than that of yesterday and to-day has not been enjoyed this season, and following the refreshing showers of the middle of the week, the atmosphere is perfectly clear. No matter what weather this summer centre is experiencing, the visitor at once realises its invigorating and bracing influence. This is due to its Aericloud foot altitude and the beneficial qualities of the sulphuriferous mineral springs that abound here. Aside from the medicinal qualities of these springs each has its special friends and patrons, and it is interesting and sometimes amusing to hear them do claim on the remarkable properties of some particular one. Individual tastes however differ, the same as in the selection of some sparkling beverage from an elaborate wine list. That all of the springs are well patronized may be observed any day by the throngs gathered about them. A large percentage of those who come here to drink the waters usually consult physicians as to which spring will most suit their case and the amount to be imbued, a custom that prevails at Spring Park, illuminated with electric lights and hundreds of lanterns, besides the usual number of gas jets, last evening produced a picture that, if it was transferred to canvas, would adorn any gallery. Over two thousand ladies and gentlemen were seated about the curved promenades, and for over two hours listened with pleasure to the music of Durin's Military Band, and watched with admiration the display of acrobatics. The melody alternated with gorgious dances, and the competing effect was very fine. The weather was superb, and all conditions were favourable for the enjoyment of the popular summer entertainments. Cartouches, the aeronaut, will be the attraction Tuesday next, and on the following Friday will occur another display of fireworks. Capt. A. S. Schuyler has arranged an elaborate program for the summer festival in these grounds.

Professor Conwell now at the Union Square Institute, New York city, is engaged in giving his course of orna-

mented art. He possibly may remain here a couple of weeks, and the entertainments will be given in the Town Hall.

"When will we begin the hope here?" The first ones will occur on Saturday evening next," said M. S. Frothingham, of the United States Hotel this morning, and added: "They will be given here (United States Hotel) on Saturday evening, until 10 o'clock, each week—Tuesday and Saturday. For the past two or three seasons there has been comparatively little dancing here; but of course there will be more now, and the entertainment will be a revival of dancing that, of course, will probably call for a larger number of ladies than the former. The ladies seem to prefer hope, as they are not as formal as full dress, and that is the reason that the first ones will occur there, probably, on Saturday evenings, and that the 'hope' or 'unwearable' rule will again be enforced. Mr. J. A. Muller has fixed upon Monday night next as the regular date for the first night, and I hope that it will be a success." The dance will be given at the Christine Hotel here, but that they will be informal. James H. Rodgers, of the Boston Evening Transcript, says: "I will have no regular spectacles this summer, but will bring in music occasionally for the benefit of the children."

Professor Stern of the Summer School of Languages and yesterday gave a meeting with good success, and hope to make some of the leading features in this season."

At the Fine Art Gallery this morning ex-Senator Thomas B. Carroll, in the paintings of the skylight, said: "Last year Mr. G. had four or two photographs here. The most of them are still here, and he added a number of new ones. I have added quite a number of my own, and now have one hundred and twenty-five photographs. The most of them are rare works of art."

Fine work is appreciated by visitors, and the members of the United States Hotel, on Saturday afternoons, of the prominent people summering in Saratoga.

The arrivals have been very good for the past few days. The weather, as usual, is fine and favorable for a week's stay, and the fine

weather we have had for two pictures here. The most of them are still here, and he added a number of new ones. I have added quite a number of my own, and now have one hundred and twenty-five photographs. The most of them are rare works of art."
